How AI works?

How ChatGPT works?

How Does ChatGPT Work?

ChatGPT leverages GPT-3.5 as the underlying model, while it uses an additional layer, a model called InstructGPT, which has become a standard within the OpenAI large language models. InstructGPT optimizes conversational abilities and improves on top of the existing GPT models.

What is prompt engineering?

Chatbots rules

Don't take my word for it:

Task	Instruction	Context
Write a structured response acting as a world-renowned CEO like Sundar Pichai, providing five main points on how companies can survive when their financial runway is coming to an end. The response should be clear, concise, actionable, and confident.	Begin with a brief introduction and then dedicate a separate paragraph for each of the five main points. Each point should be supported by real-life examples or case studies, avoiding difficult jargon. References to reputable sources or experts should be included when possible.	The audience is business owners and entrepreneurs facing financial challenges, in need of practical, insightful advice to navigate these situations. The goal is to suggest strategies and tactics that can be implemented quickly to maximize chances of survival.
Parameter	Input	
The response should not exceed 500 words and should consider the provided statistics and examples: 29% of startups fail due to running out of cash (CB Insights), Tesla's near-collapse and subsequent recovery in the 2008 financial crisis, and a quote from Ben Horowitz on focusing on cost control and finding new sources of revenue.	Draw on your knowledge of business survival strategies, financial management, and entrepreneurial resilience to provide a comprehensive response, keeping in mind the acting role as a CEO like Sundar Pichai.

Customer Avatars

Prompt 1:

Assume the role of a highly experienced researcher specialized in primary and secondary data analysis. Generate a succinct, bullet-point list of critical factors, with no accompanying explanations, that I should consider in order to enhance customer service across any industry. Please include concepts such as: niche, avatar, primary and secondary goals, objections, benefits, promises, ultimate fears, and false solutions.

just give words, ~~dont~~ give explanations

Prompt 2:

now fill all other 28 points with deep explanation as an award winning expert research.

my industry is Crypto & Block chain

My avatar is crypto beginners who want to explore crypto for financial freedom

VSL:

As a expert copywriter, Write a video sales letter using the scripts given below to sell a course about crypto and blockchain course to teach beginners about how crypto and blockchain works and make money from it

name of the course: Crypto Profits

You just have to replace the content in brackets with something that needed there.
Brackets as in (). Dont change the words that are not in brackets

and my name is avinash.

dont leave anything blank to make me fill, just fill everything and get me the final copy

write everything in a chronological order to write exactly mentioned. dont miss any points and steps mentioned in the guide and dont be hurry to complete it in just 1 output, you can continue to write super long answer if needed.

dont use any internal information in your data base to create this Video Sales Letter, strictly just follow the guide given

Hi, I'm (FIRST NAME or THIRD PERSON FIRST NAME) and this is (INTERRUPT IMAGE)

How long HAS (TOPIC) been a struggle for you?

Customer Avatar Dairy:

Act as a expert copywriter fill the brackets () mentioned in the script to complete my customer avatar dairy.

don't write any extra word to this given script, just rewrite with brackets filled
